Subject: Questions before an offer — Lot 442 Waters Edge Dr (MLS 20810887)

Hello,

I am interested in Lot 442 Waters Edge Dr in The Shores and plan to build a large home and a private dock. Before I make an offer, could you help with the following?

1. Seller's disclosure, any existing survey, and the recorded plat page for the lot.
2. Sold prices for canal-front lots in The Shores over the last 24 months (MLS sold data).
3. Current HOA dues and any special assessment or unpaid balance on the lot.
4. Any offers or contracts that fell through, and how flexible the seller is on price and on an option period of 21 days.
5. Any soil, septic, or perc test, tree survey, or builder quote the seller has.
6. The lot has 60 ft of canal frontage. Has TRWD issued a permit for the 60-ft steel wall, and is there a copy?
7. The 2026 CAD value ($155,239) is about twice the value of Lots 441 and 443. Did the owner protest in 2026? What is the reason for the $142,802 taxable value?

Subject: Prospective buyer: rules and fees for Lots 411, 441, 442

Hello Ms. Love,

I am a prospective buyer for three vacant lots in The Shores:
- Lot 442 Waters Edge Dr, Corsicana TX 75109 — T0077.06 THE SHORES ON RICHLAND CHAMBERS LAKE PH VI LOT 442 .558 ACRES — CAD 64391 — MLS 20810887

I want to build as large a home as the rules allow, plus a private dock or boathouse. Could you or the ACC confirm:

1. 2026 and expected 2027 annual dues for each lot. Are there special assessments, unpaid balances or open violations on any of the three?
2. The fee for a resale certificate (Property Code §207.003) and the transfer fee.
3. The full CC&Rs and the supplemental declarations for Phase V (Doc 00002544) and Phase VI (Doc 00002700), especially building set-backs, maximum height, minimum and maximum house size, materials, and fences.
4. ACC rules for boathouses, piers, boat lifts and walls on the canals, and the order of approvals (ACC before TRWD).
5. Whether the canal next to Lot 411 is POA common area or TRWD land, and whether the POA has dredged canals.
6. The 2026 cost of the voluntary mowing program for an unimproved lot.
7. Marina slip availability and price, and the waiting list.

TRWD — Richland-Chambers permits (dock & septic)

To: TRWD Richland-Chambers office · (903) 389-3928 (ask for the permit e-mail)
Subject: Pre-application questions: dock size and septic for three lots in The Shores

Hello,

I am considering buying one of these lots in The Shores (Navarro County) and would like to understand what TRWD would permit before I commit:
- Lot 442 Waters Edge Dr, Corsicana TX 75109 — T0077.06 THE SHORES ON RICHLAND CHAMBERS LAKE PH VI LOT 442 .558 ACRES — CAD 64391 — MLS 20810887 — about 60 ft of canal frontage, steel wall
- Lot 441 Waters Edge Dr, Corsicana TX 75109 — T0077.06 THE SHORES ON RICHLAND CHAMBERS LAKE PH VI LOT 441 .531 ACRES — CAD 64390 — MLS 21407991 — about 105 ft of canal frontage, steel wall
- Lot 411 Sailboat Dr, Corsicana TX 75109 — T0077.05 THE SHORES ON RICHLAND CHAMBERS LAKE PH V LOT 411 .5 ACRES — CAD 64288 — MLS 21334950 — east line 95.78 ft on the "Revised 315 Deed Line" of the canal tract; open water is 25–33 ft beyond the line

Questions:
1. Shoreline length used for the Attachment I size limit (8 sq ft per foot up to 150 ft) for each lot. For Lot 411, does the 95.78-ft line count, or only the length that touches water?
2. Is there a limit on how far a dock can extend into a canal about 90–115 ft wide?
3. Does TRWD have permits on file for the existing steel walls (60 ft at 442, 104 ft at 441, 100 ft at 411)?
4. Can the canal head at Lot 411 be dredged, and what permit and depth limits apply?
5. Septic: these Phase V/VI lots were platted before April 2011. Please confirm that §3.03(c) of the 2026 OSSF Guidelines (1-acre minimum) does not apply, and that an aerobic unit with subsurface drip is acceptable. Which set-back from the 315-ft line do you apply to drip fields on clay (Ra 0.1)?
6. Typical review time for a residential OSSF permit and a dock permit.

Subject: Zoning district and permit questions — The Shores Phase V and VI

Hello,

I am evaluating three vacant lots in The Shores on Richland Chambers Lake (inside the 5,000-ft lakeshore zoning area): Lots 442 and 441 (Phase VI, CAD 64391 and 64390) and Lot 411 (Phase V, CAD 64288).

Could you confirm in writing:
1. The zoning district for these lots (SF-3 or another district or PD), and the front, rear and side set-backs, maximum building coverage and maximum height that apply.
2. For a lot on a canal, which line counts as the "rear" line, and how the 50% rear-half coverage rule is measured.
3. Whether a guest house or accessory dwelling of up to 40% of the main house is allowed.
4. Whether any floodplain development permit is needed for Lot 441, which has a Zone A strip along the canal.
5. The current residential permit fee ($0.25 per sq ft of HVAC area?) and the inspection requirements.
6. How 911 addresses are issued for The Shores (county or City of Corsicana).

Surveyor — request for quote

To: e.g. Jimmy W. Pogue Inc. Land Surveyors (serves Navarro) · Andress Surveying · other RPLS
Subject: Quote: boundary + topographic survey of a canal lot in The Shores

Hello,

Please quote a boundary and topographic survey for one lot (I will confirm which one) in The Shores on Richland Chambers Lake, Navarro County:
- Lot 441 Waters Edge Dr, Corsicana TX 75109 — T0077.06 THE SHORES ON RICHLAND CHAMBERS LAKE PH VI LOT 441 .531 ACRES — CAD 64390 — MLS 21407991

Scope:
1. Boundary with corners set or found, the recorded plat lines, and easements (20-ft POA road easement).
2. 1-ft contours with the 315-ft and 320-ft lines (NAVD88), top and toe of bank, and the steel wall.
3. Trees of 10 in and larger in the building area.
4. For Lot 411: where the lot line sits relative to the canal tract and open water.
5. Optional: elevation certificate (Lot 441), and canal depth soundings at the dock location.

Please include price, turnaround, and a sample drawing.

Septic designer / site evaluator — request for quote

To: TRWD-experienced OSSF designer (ask TRWD (903) 389-3928 for local names)
Subject: Quote: site evaluation and aerobic + drip design for a large home

Hello,

I am evaluating a half-acre canal lot in The Shores (Lot 441 or 442 Waters Edge Dr, or Lot 411 Sailboat Dr). TRWD permits septic here. I want the largest home the lot can serve, about 5,000–6,500 sq ft heated with 6 bedrooms.

Please quote:
1. Soil profile holes and a site evaluation, including the soil class within 1 ft of the emitters.
2. A preliminary layout for an aerobic unit + subsurface drip, showing the 315-ft set-back you would use, and the drip area for 420, 480 and 540 gal/day.
3. The installed cost range for such a system.

Subject: Quote: geotechnical report for a two-storey home on Crockett clay

Hello,

Please quote a residential geotechnical investigation for a two-storey home (≈5,000–6,500 sq ft) on a canal lot in The Shores, Navarro County. NRCS maps Crockett fine sandy loam over clay with high shrink-swell (LEP ≈9%).

Scope: two borings to 20–25 ft, PVR, and slab-on-grade or pier-and-beam design parameters. Please also comment on the canal bank (≈23° over the last 20 ft) if a pool is planned on the lake side.

Subject: Questions about 2026 values for parcels 64391, 64390 and 64288

Hello,

I am a prospective buyer and would like to understand the 2026 values for these parcels in The Shores:
1. Parcel 64391 (Lot 442): the CAD shows a market and appraised value of $155,239 with no cap loss or exemption, but the tax portal shows a taxable value of $142,802 for every unit. What causes the difference?
2. Parcels 64390 (Lot 441), 64392 (443) and 64394 (445) fell by about 55% from 2025 to 2026, while 64391 (442) and 64393 (444) did not. Were the reductions protest settlements, or a change to the neighbourhood schedule?
3. How will the 2027 value be set after a sale, now that the §23.231 20% limit covers only 2024–2026 and does not pass to a new owner?
